INDEX TO VOLUME II

A

Acute septic arthritis in infancy and childhood (Nade, S.), 145.
Ahmed, S.: Nonoperative management of post thoractomy diaphragmatic paralysis in two neonates, 81.
Arthritis, acute septic in infancy and childhood, (Nade, S.), 145.
A simple device for continuous low pressure suction (Blackwood, R.A.), 172.
Australian Aboriginal children with moderate protein-calorie malnutrition; migration inhibitory factor production by lymphoid cells of (Ford, G.W. *et al.*), 160.
Automated history taking in paediatrics, experience with (Mauger, D.C.). 201

B

Bennett, N. McK.: See Shann, F.A.
Biddulph, J.: The role and training of hospital paediatric nurses in Papua New Guinea, 20.
Birkbeck, J.A.: The origin of clinodactyly and brachymesophalangy of the fifth finger. 218
Blackwood, R.A.: A simple device for continuous low pressure suction, 172.
Bladder, extrophy of the (Glasson, M.J.). 204
Blanksby, B.A.: A skeletal age survey of primary school children in Western Australia, 169.
Book Reviews: 56, 135, 183. 247
Brachymesophalangy and clinodactyly of the fifth finger, the origin of (Birkbeck, J.A.). 218
Brogan, W.F.: See Blanksby, B.A., 169.
Brown, T.C.K.: Overdosage – the rise and fall of tricyclic antidepressants. 190

C

Childhood mortality and its social background in the first settlement at Sydney Cove, 1788-1792 (Gandevia, B. and S.), 9.
Chloride and sodium levels, plasma potassium, during and after exchange transfusion (Tan, K.L. and Tan, I.K.), 165.
Chronic and recurrent cough (Williams, H.E.), 1.
Clinodactyly and brachymesophalangy of the fifth finger, the origin of (Birkbeck, J.A.). 218
Coagulation factors, prenatal stress and hyaline membrane disease in low birthweight babies (Thomas, D.B.), 26.
Cole, W.G.: Corticosteroids and avascular necrosis of the femoral head in childhood. 243
Comedo naevus: an unusual association of infantile cataract (Mutton, P. *et al.*), 46.
Complications of phototherapy in neonatal hyperbilirubinaemia (John, Elizabeth), 49.
Congenital rubella, dysgammaglobulinaemia and temporary immune paresis in a case of (Stern, L.M. and Forbes, I.J.), 38.
Continuous low pressure suction, a simple device for (Blackwood, R.A.), 172.
Corticosteroids and avascular necrosis of the femoral head in childhood (Cole, W.G. and Neal, B.W.). 243
Cough, chronic and recurrent (Williams, H.E.), 1.

D

Diaphragmatic paralysis, post thoracotomy: Nonoperative management of in two neonates (Ahmed, S. and Gill, B.), 81.
Dundon, N.: The use of synthetic diets in surgical patients. 225
Dwyer, Mary E.: Pneumothorax. 195
Dysgammaglobulinaemia and temporary immune paresis in a case of congenital rubella (Stern, L.M. and Forbes, I.J.), 38.

E

Epiglottitis and acute larygotracheobronchitis, prolonged nasotracheal intubation or tracheostomy in (Shann, F.A. *et al.*). 212
Exchange transfusion, plasma potassium, sodium and chloride levels during and after (Tan, K.L. and Tan, I.K.), 165.
Experience with automated history taking in paediatrics (Mauger, D.C.). 201
Extrophy of the urinary bladder (Glasson, M.J.). 204

F

Forbes, I.J.: See Stern, L.M., 38.
Ford, G.W.: Migration inhibitory factor production by lymphoid cells of Australian Aboriginal children with moderate protein-calorie malnutrition, 160.
Forrest, Jill M.: Recent implications of intrauterine and postnatal rubella, 65.

G

Gandevia, B.: Childhood mortality and its social background in the first settlement at Sydney Cove, 1788-1792, 9.
Gandevia, S.: See Gandevia, B., 9.
Gill, B.: See Ahmed, S., 81.
Glasson, M.J.: Extrophy of the urinary bladder. 204

H

Harley, J.: See Mutton, P., 46.
Hertzberg, R.: See Mutton, P., 46.
Ho, N.K.: Neonatal pleural effusion. 238
Hyaline membrane disease, prenatal stress and coagulation factors in low birthweight babies (Thomas, D.B.), 26.

I

Infantile cataract: an unusual association of in comedo naevus (Mutton, P. *et al.*), 46.
Intrauterine rubella, recent implications of (Forrest, Jill M. and Menser, Margaret A.), , 65
Intravenous feeding of premature infants of birth weight 1050 g or less, preliminary results of a clinical trial of (MacMahon, R.A. *et al.*), 154.

Kent, M.: John Stocks: An appreciation. 189
Kirke, D.K.: See Ford, G.W., 160.
Kozlowski, K.: Metachondromatosis: report of a case, 42.

L

Lewis, M.: See Mutton, P., 46.
Low birthweight babies, prenatal stress, hyaline membrane disease and coagulation factors in (Thomas, D.B.), 26.

M

Mauger, D.C.: Experience with automated history taking in paediatrics. 201
Menser, Margaret A.: See Forrest, Jill M., 65.
Metachondromatosis: report of a case (Kozlowski, K. and Scougall, J.S.), 42.
Migration inhibitory factor production by lymphoid cells of Australian Aboriginal children with moderate protein-calorie malnutrition (Ford, G.W. *et al.*), 160.
Minutes: Meeting of Editors of Paediatric Journals, Buenos Aires, October 1974, 142.
Myers, N.A.: Undescended testis: congenital or acquired? 76.

Mc

McKnight, H.P.: See Blanksby, B.A., 169.
MacMahon, R.A.: Preliminary results of a clinical trial of intravenous feeding of premature infants of birth weight 1050 g or less, 154.

N

Nade, S.: Acute septic arthritis in infancy and childhood, 145.
Nam, D.: See MacMahon, R.A., 154.
Neal, B.W.: See Cole, W.G.
Neonatal hyperbilirubinaemia, phototherapy in (John Elizabeth), 49.
Neonatal hyperbilirubinaemia, complications of phototherapy in (John, Elizabeth), 53.
Neonatal pleural effusion (Ho, N.K.). 238
Nonoperative management of post thoracotomy diaphragmatic paralysis in two neonates (Ahmed, S. and Gill, B.), 81.

O

Officer, C.B.: See Myers, N.A., 76.
Origin of clinodactyly and brachymesophalangy of the fifth finger (Birkbeck, J.A.). 218
Overdosage – the rise and fall of tricyclic antidepressants (Brown, T.C.K.). 190

P

Papua New Guinea, the role and training of hospital paediatric nurses in (Biddulph, J.), 20.
Phelan, P.D.: See Shann, F.A.
Phototherapy in neonatal hyperbilirubinaemia (John, Elizabeth), 40.
Phototherapy, complications of in neonatal hyperbilirubinaemia (John, Elizabeth), 53.
Plasma potassium, sodium and chloride levels during and after exchange transfusion (Tan, K.L. and Tan, I.K.), 165.
Pleural effusion, neonatal (Ho, N.K.), 238
Pneumothorax (Dwyer, Mary E.). 195
Postnatal and intrauterine rubella, recent implications of (Forrest, Jill M. and Menser, Margaret A.), 65.
Post thoracotomy diaphragmatic paralysis in two neonates, nonoperative management of (Ahmed, S. and Gill, B.), 81.
Preliminary results of a clinical trial of intravenous feeding of premature infants of birth weight 1050 g or less (MacMahon, R.A. *et al.*), 154.
Prenatal stress, hyaline membrane disease, and coagulation factors in low birthweight babies (Thomas, D.B.), 26.
Primary school children in Western Australia, a skeletal age survey of (Blanksby, B. *et al.*), 169.
Proceedings: 20th Annual Meeting of the Australian Paediatric Association, 97.
8th Annual Meeting of the Paediatric Research Society of Australia, 122.
Prolonged nasotracheal intubation or tracheostomy in acute laryngotracheobronchitis and epiglottitis? (Shann, F.A. *et al.*). 212
Properjohn, J.: See Dundon, N.

R

Recent implications of intrauterine and postnatal rubella (Forrest, Jill M. and Menser, Margaret A.), 65.
Robin Hood is alive and well in Australia? (Smiley, C.W.), 63.
Role and training of hospital paediatric nurses in Papua New Guinea (Biddulph, J.), 20.
